DIGITAL PORTFOLIO

STUDENTS NAME: M.G JANANI

REGISTER NUMBER NO NMID: 24724U18009 AND F6446B172535E918F06411C5F961CA09

DEPARTMENT: BCS

COLLEGE: CHEZHIAN ARTS AND SCIENCE COLLEGE FOR WOMEN AND THIRUVALLUVER UNIVERSITY

PROJECT TITLE

INTERACTIVE DIGITAL PORTFOLIO USING FRONT END DEVELOPMENT

AGENDA

PROBLEM STATEMENT

- Mobile app developers often struggle to showcase their skills and projects in an engaging, professional way.

-

- Static resumes fail to highlight technical expertise, creativity, and interactive features.

-

- Lack of a personalized online presence can limit opportunities with clients, recruiters, and collaborators.

PROJECT OVERVIEW

- Developed a dynamic and interactive portfolio website for a Mobile App Developer.

-

- Designed with a modern dark theme using pink & blue animations for an appealing aesthetic.

-

- Website highlights professional profile, skills, projects, and achievements with interactive UI.

-

- Optimized for responsiveness across desktop, tablet, and mobile.

END USERS

- Recruiters & Hiring Managers → to assess skills and projects.

- Clients/Freelancers → to review portfolio before collaboration.

- Peers & Tech Community → to showcase learning, blogs, and technical insights.

- General Visitors → to connect via contact section and social links.

TOOLS AND TECHNOLOGIES

- **Frontend: HTML5, CSS3, JavaScript (ES6).**
-
- **Animations: CSS Animations, Keyframes, JavaScript Interactions.**
-
- **Design: Dark theme with pink & blue animated gradients.**
-
- **Version Control: Git & GitHub (for deployment and updates).**
-
- **Hosting (optional): GitHub Pages / Netlify / Vercel.**

PORTFOLIO FEATURES & FUNCTIONALITY

Header & Navigation Bar → Smooth scrolling & section highlights.

Profile Section → Includes an animated avatar/photo.

Immersive Hero Section → Intro, tagline, and call-to-action with animations.

Interactive About Me → Expanding cards with career journey.

Tech Stack & Skills Showcase → Animated icons for HTML, CSS, JavaScript, Python, C++, DSA.
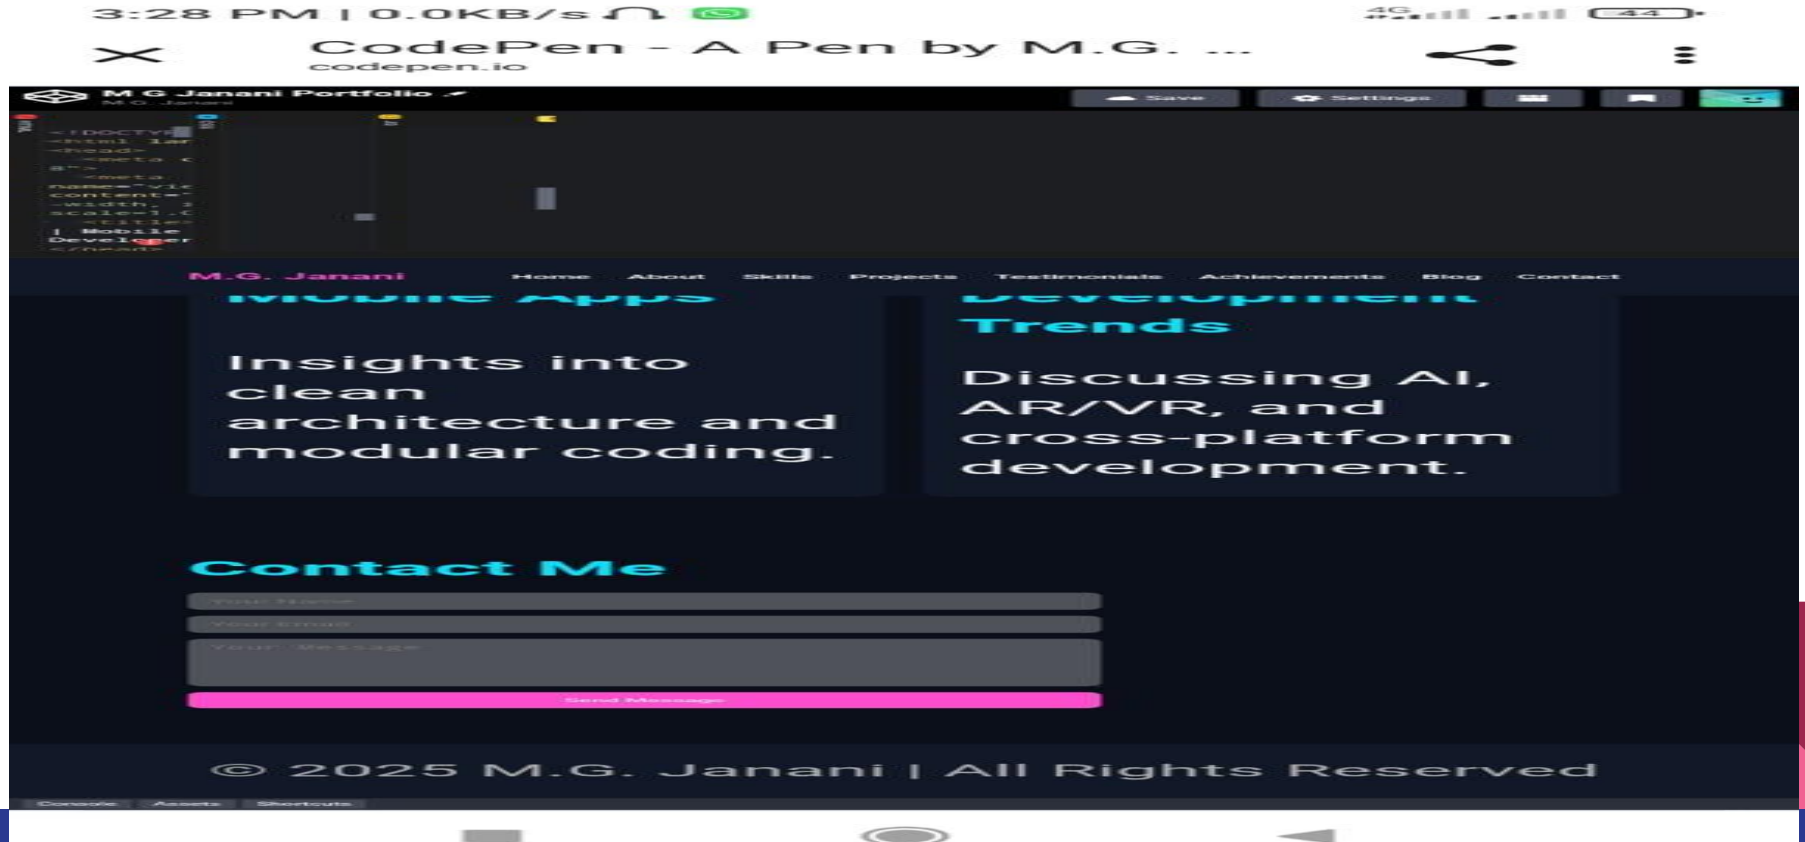

RESULT OF THE PORTFOLIO

- Created a professional digital identity tailored for a Mobile App Developer.

- Improved visibility with a modern, interactive design.

- Recruiters/clients can quickly assess skills, projects, and achievements.

- Enhanced credibility by adding blogs, testimonials, and certifications.
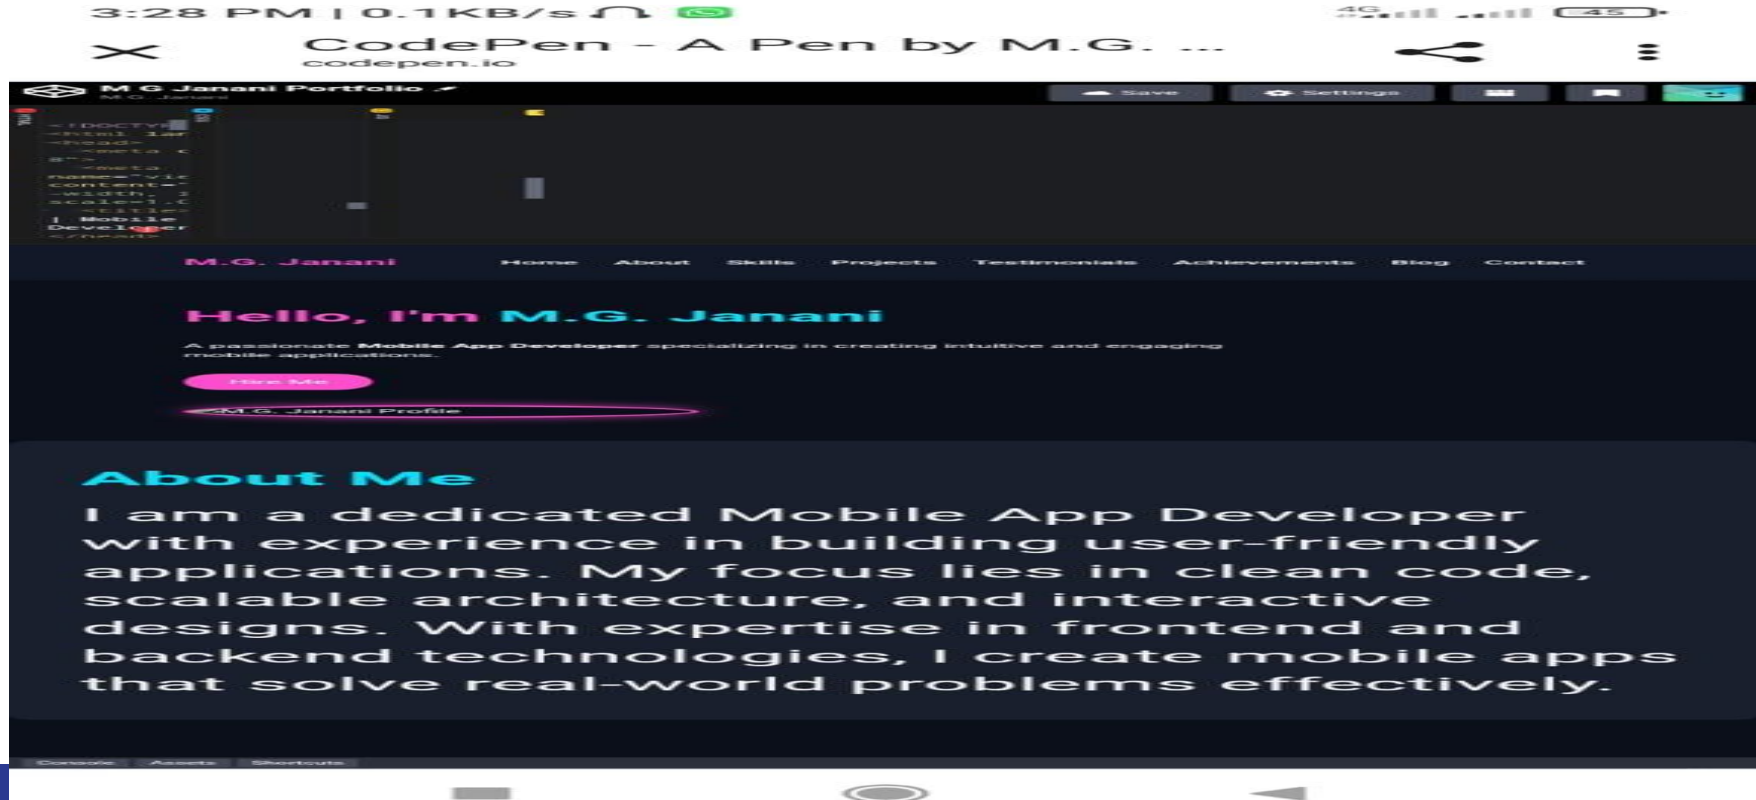

- Fully responsive → seamless experience across devices.

SCREEN SHOT AND RESULT

CONCLUSION

"This portfolio showcases my expertise in designing and developing innovative mobile applications, highlighting my proficiency in various technologies and platforms. Through a collection of projects, I demonstrate my problem-solving skills, attention to detail, and commitment to delivering high-quality user experiences. I look forward to collaborating on future mobile app development projects that push boundaries and exceed expectations."
